	<b>82BS6MX1A</b>	<b>Alpha-Link MX 16 Installation and User Guide</b>
	<b>82BSXGX1B</b>	<b>MADI-X8 Installation Guide</b>
	<b>82S6MC620B</b>	<b>MADIXtreme Installation Guide</b>
	<b>82S6MC650A</b>	<b>MX4 Installation Guide</b>

Please Note. For each of the units noted above, the WordClock or Sync connector is specified as being “3V3/5V compatible”. This means that:

- For WordClock input the unit accepts either 3V3 or 5V signals
- The WordClock output generates a 3V3 signal
